EDUCATION

University of Auckland *Auckland, New Zealand*
Bachelor Engineering(Hons) in Software Engineering. February 2024 - Present

PROJECTS:

Soul ID | *JavaScript, HTML, CSS, Solidity, Hardhat, Ethereum Sepolia(testnet)*
Winning the $4000 **1st prize** in the Fire Eyes Data Governance challenge in the first NZ Web3 hackathon. Soul ID is a soulbound token voting system using Metamasks JavaScript integration and smart contracts.

- Responsible for the JavaScript integration of the Metamask wallet to the front end as well as assisting in both front and back end development

Encroaching Darkness | *C#, Godot, LMMS*
Receiving **top marks** for theme, Encroaching Darkness is a survival-horror game focusing on using lighting as the core survival mechanic. This was built in 2 weeks using the Godot Game Engine during PirateJam14.

- Responsible for Game Design, Programming, Music and Sound Design

Auckland University Esports Club Website | *Next.js; CSS; Supabase; Prisma*
Full stack web application built for the Auckland University Esports Club, displaying upcoming events and providing valuable information for onboarding both sponsors and members.

- Responsible for both front end and back-end development

Youth Counselling Website | *HTML; CSS; JavaScript; pHp; SQL; phpMyAdmin*
My final year college web project, where I made an informative website around youth counselling and providing information to support and help youth understand themselves better. Additionally, there was a section to create an appointment and book in a time, as well as an administrator page to view and edit these bookings.

EXTRACURRICULARS

Auckland University Esports Club *Auckland, New Zealand*
Social Media Editor and Broadcast Staff March 2025 – Present

- Facilitating Live Broadcasts and Organising In-Person events with over 50 attendees
- Managing Live Broadcasts with hundreds of live viewers to ensure a positive viewing experience
- Creating and editing content for the club's social media which have tens of thousands of views, helping the club reach outside of the university
